

BIG FOREST AREA IN FLAMES

WORLD SERIES BEGINS TODAY

Northern Minn. Is Sea of Smoke

Widespread Destruction Is Feared At Slightest Provocation of Elements.

(By GEORGE H. MANNING)
 'DULUTH, Minn., Oct. 4.—Northern Minnesota's forest area today continued a veritable sea of sombre colored smoke, dotted with fires, some under control, some admittedly beyond control, but on the whole threatening further widespread destruction at the slightest provocation of the elements.

Urges Own Code For Insurance Men

HOT SPRINGS, Ark., Oct. 4.—If insurance men can carry their O. O. standard qualification and business conduct and expy them through, the need of legislation will be forgotten. E. B. Dunning of Duluth, Minn., regional vice-president of the National Association of Insurance Agents, told delegates to the convention of that organization here today.

"I believe it is no more practical to legislate a qualification code into the American agency system than it is to legislate a prohibition upon the American public. The real objective in legislative control is seldom gained.

"If higher standards are bred within us, they will be a natural development. If they are grafted upon us, they will always be an abnormal growth.

"I advocate the plan of requiring one year apprenticeship in an established agency before an agent is granted a license. Apprentices could carry on the detail work of the agency during the period of preparation and would finally go forth to sell insurance by knowledge and not by misapprehension."

Preparing For Billy Sunday

**Ministerial Union Making
Plans for His Coming to
Danville Next Monday.**

Preparations are in full swing for the "Bully" Sunday meeting which will be held in the tabernacle on Monday morning next at 10:30 o'clock. The Ministerial Union has appointed the following program for the day:

A special committee has been appointed to meet the Sunday party when they arrive by train from the city at 9:30 o'clock in the morning. Coping with the famed evangelist from the Hill City will be his wife, familiarly called "Ma" Sunday. Homer, the organist, and the pianist. Immediately upon arrival the party will be taken to the tabernacle and the organists in cats to the tabernacle and no time will be lost in preliminaries. The first act will be the singing of the city schoolchildren to the tabernacle also the student bodies of the three local colleges. All civic bodies are asked to have present. The Ministerial Union is asking that members who sang in the choir at the "Mel" Trotter revival constitute a choir during that rehearsal. The choir will act at the tabernacle on Monday. Indications point to a large turn-out of people.

to hear the revivalist. After the service the Sunday party will be guests of the Ministerial Union at lunch at the Burton Hotel in the evening the visitors will leave for Chatham where, it is understood, Mr. Sunday will conduct a service. He is booked for a sermon near Lynchburg on Monday night.

The clerics to be taken at the same time will be devoted to the Winona Bible school in which the revivalist is interested, after the deduction of the party's travelling expenses from Lynchburg to Danville.

**Prominent Business
Man Is Indicted**

GREENVILLE, S. C., Oct. 3—

Campbell Courtneyan, of Columbus, former president of the Courtneyan Manufacturing company, of Newry, was indicted in United States District court here today on a charge of attempting to defeat and evade the income tax provisions of the new Federal Tax Bill of Congress of 1913. He is charged with altering and causing to be altered during the year 1913 the books of accounts, records and papers of the Courtneyan Manufacturing company, and procuring the falsifying and causing to be changed and raised the true price and cost paid by the Courtneyan Manufacturing company for cotton consumed and manufactured during the year 1913.

The indictment is the fourth to be returned against Mr. Courtneyan, three others having been barred down on the sum of federal court in Anderson last May.

SOUTHERN CLEARS LINES FOR WORK IN TWELVE DAYS

Just now a big job the Southern Railway System performed in clearing its lines of all congestion and returning to normal freight and passenger service. The Southern Railway System had an accumulation of 14,126 loaded cars not moving currently on September 18th, when the strike of the shopmen was settled. Some of these were frozen in yards and others were set off on side tracks out on the line. We had rigid embargoes outstanding and a number of passenger trains had also been discontinued as an emergency measure. On October 1st, the entire accumulation had been moved and all yards and terminals were functioning normally; all embargoes for which the Southern was responsible had been lifted and all passenger trains had been resumed. The Southern is today in a normal condition and ready to handle all traffic offered by shippers or connectives for all destinations subject only to outstanding embargoes of connecting lines.

MAIL ROBBER LEADS OFFICERS TO CACIE

DENVER, Colo., Oct. 3.—Raymond Miller, held in connection with a \$119,990 mail robbery at Trinidad, Colorado, May 21, led federal officers to a field near Trinidad and uncovered a buried fruit jar containing \$25,000 in Liberty bonds and \$5,000 in cash and gold, today how \$38,000 worth of non-negotiable securities was turned in a midnight bonfire after the robbery, postoffice inspector Roy Nelson announced.

RECEPTION AT AVERETT HELD LAST EVENING

A large number of well known Danville ladies and gentlemen met the invitation of Mr. and Mrs. James P. Craft to meet the faculty of Averett College last evening from 8 until 11 o'clock. An enjoyable evening was afforded and the social service was augmented by music and refreshments were served. The contributions to the musical phase of the entertainment were Miss Almy, head of the voice culture school, and Miss Paul, head of the school of voice instruction. The parlors, library, auditorium and the music room were all utilized for the occasion and these were thronged with guests. In the receiving line were President and Mrs. Craft, Professor and Mrs. Brown, Eugen Putnam and all the other members of the faculty in the order of their identification with the college. Several hundred guests called and cordially greeted the ladies and gentlemen composing the faculty, one of the largest and most efficient in the school's history. The young ladies composing the student body were also charmingly in evidence and contributed to the pleasure of the occasion in the assistance they rendered in entertaining the callers. The musical programme included two delightful numbers sung by Miss Almy, whose delightful voice and pleasing personality are well known to Danville people and particularly to the musical element. She sings with ease and confidence and her tones are delightful. The reception accorded her first number and the assistance of her hearers caused her to respond with another selection in which she confirmed the impression she had made.

The other contributor was Miss Paulsen, herself an accomplished violinist and teacher who has become almost universally known in Danville by her work here for years. She played several delightful numbers and aroused enthusiastic expressions of appreciation. An orchestra of well known young men contributed selections of the more modern and popular music—particularly popular with the younger set, and added very much to the pleasure of the evening. While a number of new members of the faculty were in evidence, there are sufficient of those of other years to make visitors to the college feel that they are among old friends, even while they are meeting and greeting the new. The occasion was marked by a cordiality that deprived it of undue formality and added the pleasure of the visitors.

SOVIETS FIGHT LIBERAL IDEA

MOSCOW, Oct. 4.—The Soviet regime is now waging a campaign to crush what it terms "bourgeois psychology" of the ideas of individual wealth and freedom from state interference. These have again sprung up in Russia as result of development of the new economic policy.

This psychology, declared, is the most dangerous enemy of the ultimate success of Communism in Russia. It was pointed out that, since a measure of freedom of trade was restored, many Russians have been misled by the idea that bourgeois and democratic ideals were again being reigned in Russia.

Communists are determined that such ideas shall not be allowed to grow, and declare that the present heavy allowance to capitalism in Russia is merely a temporary step, opportunistically utilized by the Bolshevik regime in the direction of the goal of communism to be reached in years to come.

This insistence on stamping out "bourgeois psychology" led recently to the exile of more than 150 Russian intellectuals who, while not actively opposing the Communist regime, nevertheless, were unable to think along Communist lines.

One Moscow university professor, exiled abroad, declared the Communists now are endeavoring to force a monopoly on thought, as well as a political monopoly on Russia.

POSTMASTERS OF VA. UNCONFIRMED

WASHINGTON, D. C., Oct. 3.—When the Senate session adjourned about ten days ago, the appointments of four Virginia postmasters were left unconfirmed. They are: Manley W. Carter, Orange; Ira D. Baker, Lovettsville; William H. Haney, Claremont; and Augustus R. Morris, Jetersville.

The Claremont and Jetersville nominations were sent to the Senate only three days before the end of the session. As the Virginia Senators had no special interest in getting the Republicans appointed no action was taken on the appointments before adjournment.

The Orange and Lovettsville appointments were before the Senate three months ago, but the Virginia Senators prevented their confirmation right up to the end of the session.

The appointment of Manley W. Carter as postmaster at Orange has been held up by Senator Swanson, who is dissatisfied with the methods that led up to his nomination. After the candidates were given an examination, Carter did not get on the eligible list, but stood fourth. The Republicans wanted Carter appointed.

Congressman Stephens made an investigation at the Civil Service Commission, he stated today, and found that Carter had not given a good rating because something had been charged against him that had no basis in fact. When this error was corrected, he said, Carter was given a rating of high class for eligibility for appointment. He then recommended his appointment and he was nominated.

Senator Swanson has not yet been satisfied about Carter's selection and is still holding up his appointment. He was nominated on July 18th.

The appointment of Ira D. Baker at Lovettsville, was sent to the Senate June 29th. The Virginia senators have been holding up his appointment because of some question as to his ineligibility because of non-residence in keeping with the rule.

It is probable the President will sign a "recess appointments" during the present recess of Congress, subject to confirmation by the Senate when it meets again.

About 600,000 Pounds of Tobacco Received on The Danville Market 1st Day

CO-OPS ENTHUSIASTIC OVER THE FIRST DAY

The following account of the operations yesterday of the Co-operative Marketing Association in Danville and other markets in Virginia and North Carolina were sent out to the newspapers of the two states last night by Mr. Frissell, press representative of the association:

Co-operative Marketing swept across the old belt with unparalleled enthusiasm and success today when well over two million pounds of tobacco were delivered by members of the Tobacco Growers' Co-operative Association to 35 delivery points in Virginia and North Carolina. On 24 of the association markets, the entire delivery from 34 grades were sold to leading manufacturers and processors of tobacco. Co-operative marketing had ended in Virginia and western Carolina. Richard R. Patterson, general manager of the leaf department of the association announced today that one million pounds had been billed out of Richmond to leading manufacturers on October 2nd. Upwards of a million pounds sold today will be packed into bales and shipped from two dock points within hours after the organized growers of Virginia began marketing the new way.

No previous opening of the big co-operative has brought out the enthusiasm and loyalty of thousands of members over both the grading and their first cash advances as today's opening of old belt.

First advances on piles of tobacco ran as high as \$35 a hundred on several markets and many piles went from \$18 to \$22 throughout the belt. Deliveries at the two association markets in Danville amounted to 200,000 pounds. South Boston received well over 100,000 pounds from the organized growers of Halifax county, Chase City 75,000, Kenbridge 60,000, Drakesboro 60,000, Chatam 50,000 and unexpectedly large deliveries at all Virginia points reporting.

The old belt of North Carolina also passed all expectations at Madison where 200,000 pounds were reported on the floors. Forty-one wagons were waiting at sundown to unload tobacco. Elkin reported deliveries of 200,000 pounds; Greensboro 100,000; Pilot Mountain 80,000; Statesville 75,000; Walnut Cove 75,000, and Mt. Airy 60,000.

At South Boston and Danville scores of new members joined the marketing association and several hundred new marketing contracts were signed in the two states as a result of the association's first day's marketing.

The grading, sorting and handling of the tobacco by veteran graders and warehousemen, just returned from the operation of the Tobacco Growers' Co-operative Association markets in North Carolina, thoroughly pleased the growers who crowded about Richard R. Patterson, general manager, and A. R. Breedlove, assistant general manager of the leaf department at Danville, South Boston and Chatham, where they supervised the first day's opening.

"The best tobacco since 1915 was Mr. Patterson's comment on the first deliveries to the association" on the Virginia markets which he visited today.

Many averages of from \$15 to \$18 and many piles running from \$20 to \$25 on the first conservative cash advances by the association indicated the splendid quality of tobacco received by the co-operative.

"I've often received lower prices for better tobacco" was a frequent expression of the growers on the co-operative floors today when referring to the first cash advance which they received with their participation receipts.

Local banks throughout Virginia and North Carolina are loaning money today upon the security of these participation receipts in addition to the first cash advances which proved so satisfactory.

Director of warehouses T. C. Watkins, with Managers R. R. Patterson and A. R. Breedlove will visit other co-operative markets of Virginia and western North Carolina during the next two days.

DANVILLE MAN IN TROUBLE IN GREENSBORO, N. C.

GREENSBORO, Oct. 3.—John T. Clark, of Danville, arraigned in municipal court here this morning, charged with an assault with a deadly weapon, with carrying a concealed weapon, and with being drunk and disorderly, was found guilty on all three counts and given fines amounting to one hundred and fifty dollars and the costs.

The John T. Clark, named above, is not Officer John T. Clark, of the Danville police department.

JAPANESE RATES ARE EXCESSIVE

TOKIO, Oct. 4.—"It is generally admitted that the money market in this country is witnessing a rather peculiar phenomenon in that the supply of capital in the market has never supposed to be plentiful but never before has the rate of interest prevailed," says the financial paper Diamond.

The extraordinarily high rate of interest that is charged for loans raised by various concerns is interpreted by many as an unmistakable indication of the contraction of credit and the lightness of money despite the reported abundance of funds in the hands of the bankers.

Notwithstanding the raising of loans is continuing and causing a greater stringency of the money market. The issue of debentures by public companies began a few years ago and in 1919 and 1920 approximately 140,000,000 yen in loans were raised each year. The climax was reached in 1921 when the total raised amounted to 200,000,000 yen. During the first six months of this year, 57,000,000 yen loans were raised and adding to this 24,000,000 yen loans raised in July, the total does not exceed \$1,000,000 yen. When a comparison is made as to the rate of interest paid between the 1921 and 1922 loans the exorbitant rate of interest charged this year for loans of shorter periods than those of last year is shown.

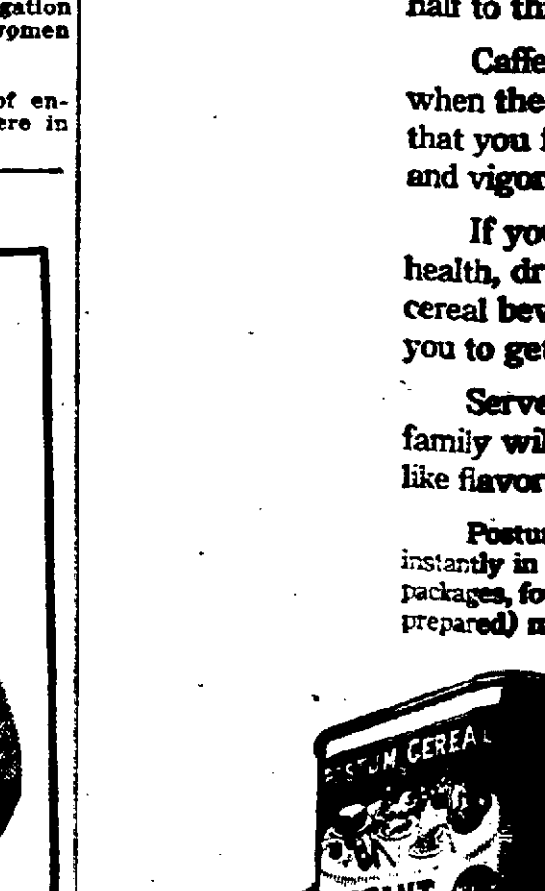

WOMEN PASTORS PROBABLE IN NEW SOUTH WALES

SYDNEY, N. S. W., Oct. 3.—The prospect of women preachers occupying pulpits in many New South Wales churches has arisen as the result of a proposal, which is to come before the next Anglican Provincial synod, that women be permitted to conduct church services under certain conditions.

The proposed ordinance suggests that the archbishop or bishop of a diocese may issue a license to a deaconess to perform any of the following duties: to prepare candidates for baptism and confirmation; in church, in the absence of the pastor, to read morning and evening prayer and the Litany, except such portions as are assigned to the priest only and to instruct and to exhort the congregation and to conduct services for women and children.

Anglicans developed the art of engraving on emeralds, which were in great demand.

the auction floors and about 100,000 pounds on the auction floors today. About 80,000 pounds of pool tobacco was in the city tonight ready to be graded when the warehouse open tomorrow.

Richard R. Patterson, head of the Eastern department of the Co-operative Marketing Association, and A. R. Breedlove, assistant manager, were in the city yesterday.

REIDSVILLE MARKET IS OPENED WITH PRAYER

REIDSVILLE, N. C., Oct. 3.—The Reidsville co-operative warehouse was opened today, although the new building was not quite completed and the managers notified the growers not to rush their tobacco. There was an unusual amount of interest in the fact it was coming in all through the day. At ten o'clock this morning, appropriate exercises, featured by a prayer, were held. The large warehouse was crowded with farmers and towns people. Not a long face was seen. Already approximately nine million pounds have been pledged to this one house. The Reidsville auction market never before has sold as much as eight million pounds.

PROGRESSIVE VIEW OF W. G. LEE

CLEVELAND, O., Oct. 3.—A plea to forget destructive thoughts and turn time and energy to constructive policies is contained in the Labor Day message of W. G. Lee, president of the Brotherhood of Railroad Trainmen. "Labor is charged with being militant and the charge is true," he said. "The same may be said of any nation or people who have accomplished anything. Had labor not been militant the relation of master and slave would still exist."

Whatever labor has gained it has secured by its strength either directed through the force of its organizations or through the enactment of laws and has done so against the combined forces of the employer.

"Instead of continuing a program of reprisals both capital and labor must agree to a common sense, fair and practical adjustment of their differences of there will be what amounts to a competition for certain classes of both in the interest of common welfare."

NO INDICTMENTS AGAINST DOCTORS

RICHMOND, Va., Oct. 3.—The federal grand jury today failed to indict several physicians arrested here a short while ago for having issued alleged illegal prescriptions for liquor. The men are all well known, their names being disclosed when the grand jury made its reports. The cases were picked up by federal officers, who managed to get prescriptions for liquor, as they claimed. The officers declined for a long time to give out the names of the men.

MAURETANIA IS LATE

SOUTHAMPTON, Oct. 3.—The steamer Mauretania arrived here at 5:30 this afternoon 34 hours late. The delay was caused by the liner's inability to use her fourth propeller which reduced her speed to 20 knots. The liner's calling for New York scheduled for October 7, was cancelled today. She will be laid up for 3 weeks on repairs.

In 1848 the Jews of Portugal banished to Brazil.

the auction floors and about 100,000 pounds on the auction floors today. About 80,000 pounds of pool tobacco was in the city tonight ready to be graded when the warehouse open tomorrow.

Richard R. Patterson, head of the Eastern department of the Co-operative Marketing Association, and A. R. Breedlove, assistant manager, were in the city yesterday.

Why some people sleep 'Lightly'

THE PRINCIPAL REASON is irritated nerves, and the common cause of nerve-irritation is coffee and tea drinking. For each cup of coffee or tea contains from one and one-half to three grains of caffeine.

Caffeine has a tendency to agitate the nervous system, when the nerves, normally, should be relaxed. The result is that you fail to get the deep, restful sleep that restores health and vigor.

If you have any idea that coffee or tea is injurious to your health, drink delicious Postum, instead. Postum is the pure cereal beverage that helps the nervous system, by permitting you to get sound, revitalizing sleep.

Serve this fragrant, mealtime beverage. You and the family will be surprised and pleased with its delicious, coffee-like flavor. And better health is worth while.

Postum comes in two forms:—Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages, for those who prefer to make the drink while the meal is being prepared) made by boiling fully twenty minutes.

Postum FOR HEALTH

"There's a Reason"

Made by Postum Cereal Co., Inc., Battle Creek, Mich.

Witt Is Cleared of White Slave Charge

Helen Olswang, Girl in Case, Drops Prosecution, Says She Still Loves Witt and Will Help Him Out of Trouble.

By GEORGE H. MANNING
(Washington Bureau of The Danville Bee)

WASHINGTON, D. C., Oct. 4.—Charles H. Witt, charged with the abduction of Helen Olswang, a girl in a case, drops prosecution, says she still loves Witt and will help him out of trouble.

Following dismissal of the grand jury it issued a statement saying that it had failed to find sufficient evidence to bring an indictment against Witt. Witt is the 20-year-old son of J. F. Witt, of Pennington Gap, democratic candidate for the State legislature from Lee county two years ago, and said to be the grandson of W. F. Hurst, miller and banker of Pennington Gap.

Witt was arrested here about ten days ago just as he started out with his former wife and their three children for a day's outing at the Zoological Garden. The police reported that hearing that Witt contemplated an outing with the woman from whom he had been divorced, Miss Ethel M. Olswang, 19, of Woodhaven, N. Y., preferred charges of white slavery against him and caused his arrest and the interruption of the day's outing.

Miss Olswang alleged that Witt had courted her in New York where they were both employed in office, and after promising to marry her had made trips with her to Washington, Lynchburg, Danville, Cincinnati, Chicago and other cities.

Finally, Miss Olswang said, Witt advised her he had a wife and three children in New York who could not wed her. He said, however, she alleged, that he intended to divorce his wife and would then marry her (Miss Olswang). Two or three times the wedding had been arranged, she added, but each time Witt ducked out of the ceremony.

Miss Olswang was an important witness sometime ago in Chicago in the case where Witt obtained a divorce from his former wife.

With the intention of making one more last appeal to him to marry her, Miss Olswang said, she came to Washington ten days ago with her mother, only to find he was associating with his former wife and had planned an outing with her.

It was then that she notified the police and caused his arrest on the white slavery charge.

When the case was called for trial four or five days later, Miss Olswang dropped the prosecution.

"I have thought the matter over," she said, "and have decided that although I have been treated rather shabbily, I still love Hazen. As long as he doesn't marry his former wife I am willing to give him up, because I understand that if he marries again he will be imprisoned. Though I still love him I will try to help him get out of trouble."

Expect Trinkle To Call Session

Virginia Congressional Delegation Looks for Legislative Assembly Before End of Year.

By GEORGE H. MANNING
(Special to The Bee.)

WASHINGTON, D. C., Oct. 4.—The necessity for the calling of an extra session of the Virginia Legislature has been increased by the very recent discovery it is learned that the City of Hampton, in addition to Madison county, was omitted from the defective Senate bill redistricting Virginia for representation in the State Senate and House of Delegates.

The Virginia members of the U. S. House of Representatives believe that Governor Trinkle will issue the call for the extra session before the end of the present year. The constitution of 1902 provided for decennial redistricting, making it mandatory commencing in 1912, though as a matter of fact that provision was ignored ten years ago and there has been no alteration of the lines since the constitution became effective. It is now a question of an early session that there is serious question whether the constitution of the last session would be constitutional if made in 1912 and

Roanoke Boys Land In Trouble

ROCKY MOUNT, Va., Oct. 4.—Five boys of Roanoke, the oldest being 14 years of age, by the names of Robert and Ralph Collins, James Mabel, Minix and Gibson rode into Rocky Mount, last evening, Tuesday, on bicycles, tow of which belonged to the boys, and three were taken from one of the schools in Roanoke, no doubt with the intention of returning them after the joy ride. However, after reaching Rocky Mount, they were too tired to return to Roanoke at once, and plans were made to spend the night in Rocky Mount, and three of the bicycles were offered for sale. Messages were received to hold them until their parents could come for them. Sergeant T. J. Smithers took charge of them, and they were turned over to their parents today.

Nurse Saves 2 People From Operation

"I had two patients that the doctors seemed unable to reach with their medicines and in both cases advised the knife. A friend who had tried May's Wonderful Remedy for Stomach trouble proposed that I recommend it to my patients, which I did. Both are now entirely well. I am very glad that I was able to recommend it." It removes the catarrh mucous from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at J. C. McFall's Drug Store, Trent Drug Co., and druggists everywhere.—adv.

Wise Women.

A famous medical man of ancient times states regarding his writings that they were but a collection of knowledge obtained from the "Wise Women of the East."

Do you realize that in those times the women, and not the men, knew about the healing properties of medicinal plants, roots and herbs? From the earliest times, women had a knowledge of the treatment of disease and of the healing merit of roots and herbs.

Lydia E. Pinkham's Vegetable Compound was originated by a woman, Lydia E. Pinkham, and is now known and praised by women of all ages. It is prepared from roots and herbs, having medicinal action of great value in the treatment of trouble women so often have.—adv.

Prepare New Map Of World In Washington

WASHINGTON, Oct. 4.—Uncle Sam is slowly progressing on a new map of the country, to be a part of a new world map, based upon a simple system proposed by American representatives in 1903, and accepted at international conferences. It will be the result of years of effort by map makers who have desired a system of cartography whereby the same scale of distances could be used in a world map, with lettering and symbols uniform. The American map is expected to be completed in ten or twelve years.

Each country will map the territories and waters under its own jurisdiction, and the Geological Survey of the United States Interior Department is making the maps of this country. The globe is to be divided into 144 sections. Each section is designated by a distinctive letter and number combination, in addition to a name derived from the locality mapped.

Each sheet, covering one section, will cover all longitudes and latitudes, and four degrees of latitude. The sheets are numbered from 1 to 60, beginning at the 180th meridian of longitude, and girdling the globe to the eastward, and are lettered from A to V, north and south, with the same scale as a starting point. The north and south polar regions are to be shown in circular sections from the 88th parallel of latitude, and lettered Z-North and Z-South.

The main purpose of the international map, which will be drawn on the scale of one to one-millionth, is to furnish a complete world map of uniform drawing, thus obviating the present scales of distances, and to enable map makers and readers of every country, to understand the maps of every other, even though they do not understand any but their own. The map will be shown in the outlines of land and water, with depths of water and heights of land; stream and river systems, or drainage, in the map maker's parlance, roads, rail and trolley lines, towns and cities, and other features.

While the scale, which is approximately sixteen miles to the inch, will allow of very inclusive work, many details of small towns and streams will be omitted.

To show heights and depths, a scheme of hypsometric colors has been adopted. This will grade from a very light green, for shallow waters, to the familiar tints of deep blue, for the increasing depths of seas, and from light yellow, for low countries and valleys, to a deep brown red for heights. Contrasts will be shown in sharp black lines, at intervals of 100 feet. The map system has been adopted for all minerals, and high points, peaks and mountains will be shown in metres. Streams and rivers will be shown in blue, roads in red, and other water bodies in black. The names of features will be shown in the color of that feature, to obviate confusion.

The projection is based upon a modified polyconic system, wherein meridians are all in straight lines. The lines of latitude will be only slightly curving on each sheet, because of the large scale. The system is of advantage in the adjustment of adjoining sheets.

As many political boundaries will be shown as the density of the data included permits. For instance, the map of the United States will show State boundaries, reservation, land grant, and other land office lines. The control, that is, positions determined astronomically and by triangulation, to insure accuracy, drainage, including rivers, streams, creeks, swamps, bays and other water bodies, and culture, that is towns, cities, railways, roads and highways, all constitute a "base map," which is compiled as the first step in the work and which will be made available by the survey for State and other maps. The completed map, in size about 30 by 20 inches, is copper engraved in the most delicate and strong detail, and will be available at the survey, is reduced in size to form a scale of eight miles to the inch. The production is by photolithography.

The sections thus far completed have required six months to compile. The work, however, for lack of appropriation, is being done concurrently with other map work. It is estimated that the cost for the international map will be from \$15 to \$25 per thousand square miles of area. The survey, desirous of having the most accurate and up to date data upon the map, gathers the material from dozens of sources, and does not consider an area completed until every source of information has been drawn upon. These include: the survey's regular information gathered in the making of the national topographic map, which was fifty years ago, other governmental map-making sections, State and county maps, private maps and army and navy charts.

The details of the international map were accepted by nineteen nations at conferences in 1903 and 1913. While it is popularly known as the One-Millionth Map of the World, its correct title is The International Map of the World on the Scale of 1:1,000,000.

Advocates of a bond issue for highway construction, it is understood, are prepared to take full advantage of the extra session to put through bills authorizing such a measure. An effective argument for providing money through an issue of bonds is the existence of complete machinery for construction, including a reorganized department and the chiefship of one of the ablest highway experts in the country.

In spite of the advantages of a well organized highway bureau Virginia has practically no funds appropriated and the department, instead of going ahead full steam is brought to a standstill by failure of the assembly to carry the program through providing the money.

Writ of Error Given Covington

Spray Officer Sentenced to Serve Seven Years Gets Verdict Set Aside.

A writ of error has been granted by the Virginia Court of Appeals in the case of W. D. Covington against the Commonwealth. M. K. Harris his counsel has received a telegram stating that the court had granted the writ setting aside a verdict rendered by a Pittsylvania jury before Judge Richard S. Ker, who was presiding at the trial.

Covington was an officer living at Spray in an effort to seize a liquor runner close to the state line not far from Axton, shooting took place in which George Bryant, the man alleged to have been driving the liquor car, was shot through the head and killed. The jury convicted the officer of second degree murder and sentenced him to serve seven years in the penitentiary, an appeal being noted.

Officers who took part in the shooting episode. The defense of the officer was that he shot in self-defense, it being claimed that Bryant who had been pursued for some distance opened fire from a hidden position while the officers were looking for him.

Most of the things an unsophisticated person doesn't know are not worth learning.

GOING TO MEXICO

George P. Wilson has made application at the office of the clerk of the United States Court for a passport into Mexico where, it is understood he is going to represent the British American Tobacco Company.

CLUB MEETING.

The Shakespeare Study Club will hold its first meeting with Mrs. Richard Carter, 169 West Main street, Thursday afternoon at four o'clock.

Mrs. J. J. Ferguson and Mrs. R. G. Lewis have been called to Goldsboro, N. C., on account of the illness of their brother's wife, Mrs. L. L. Smith.

New Clock

C. F. Meyer, paymaster of the National Cash Register Company, Dayton, O., has invented a new decimal clock with the hour divided into ten sections of six minutes each. It is used in figuring on interest time at the factory.

Took \$5; Got Five Years; Appeals

RICHMOND, Oct. 3.—Whether a person can be legally convicted of attempting robbery "for taking what he is rightfully entitled to" is, according to the appeals court, to be decided in the case of Louis Butts, of Norfolk, who has been granted a writ of error by the Supreme Court of Appeals.

According to Butts' petition, he was discharged by the "walking boss" at a Norfolk county guano plant, who refused to pay him the five dollars in wages due him. He went to the superintendent of the company and asked for his money, but was told to come back on the following Saturday. This, the petition continued, enraged Butts, who drew a revolver and demanded the money immediately. He was paid him, but later he was arrested and sentenced to five years in the State penitentiary.

Bootleggers Doomed, Says Tar Heel Judge

CHARLOTTE, N. C., Oct. 3.—"The hope in the hearts of the minority of this country that liquor is coming back is fast dying out," Judge Yates Webb of Federal District Court, asserted in his charge to the newly sworn-in jury here.

"The bootlegger and the blockader are fighting a hopeless cause," he continued. "The United States has never been whipped in any war yet, and it will not be whipped in the battle which has been waged by these scoundrels against the American traditions of American institutions and of American destiny. The only war, I pray God, that this republic will ever be forced to engage in hereafter is the war to drive liquor eternally out of existence in our land."

Judge Webb declared there was no foundation for the statement of certain persons that they would "favor prohibition if it prohibited" and said North Carolinians "seeing to it that the laws are obeyed." He also said he "detests the sort of sentiment" that guides the man who will buy liquor and drink it although he would not sell it. More than 90 per cent. of crime can be attributed to liquor, said Judge Webb.

Democrats Win Out In Arkansas By Large Margins

(By The Associated Press.)
LITTLE ROCK, Oct. 4.—Incomplete returns in yesterday's statewide election indicate the entire Democratic ticket headed by Governor T. C. McRae, has been re-elected by large majorities.

LIQUOR TRANSPORTATION

WASHINGTON, Oct. 4.—The opinion of Attorney General Daugherty as to the legality of liquor transportation into American coastal waters—which has been forecast as forming the basis of the government's policy in this regard—will be completed by the end of the present week, it was said today at the department of justice. It is expected that the opinion will be translated at once into regulations for the guidance of the enforcement officials acting under authority of the department.

Rocky Mount Season Opens

(Special to The Bee.)
ROCKY MOUNT, Va., Oct. 4.—The auction sales tobacco market opened here today, Tuesday, Oct. 4th, under favorable auspices. A very large crowd of farmers were present, who followed the sales closely. The color and quality is much better than last year's crops. A full force of buyers was on the sales, first sale being at the Banner warehouse, and the sales being so large it will take late in the evening to complete the sales at both warehouses.

The co-operative tobacco market at Franklin county also opened today with a large quantity of tobacco to be pooled. Manager Allen C. Woody says the outlook is very bright for the Tobacco Growers' Association in this county, as they can take care of large quantities of tobacco, as they are prepared to handle it.

DETERIORATION OF COTTON CROP CONTINUES

(By The Associated Press.)
ATLANTA, Oct. 4.—Continued severe deterioration of the Georgia cotton crop during the month of September indicated a report by the Bureau of Agricultural Economics.

Venezelos Asks America to Aid Solve Problems

Freight Rate War Resumed

SHANGHAI, Oct. 4.—Two thousand miles from the water in the far up reaches of the Yangtze Kiang where only steamers of special construction may venture a freight rate war was fought out in the early summer months and ended with a general agreement by American, British, French, Japanese and Chinese interests that operate vessels in these treacherous waters. Then the agreement was broken and the rate war was resumed.

The slashing of rates developed when a considerable number of new vessels was put into service between the Chungking and Ichang. When the rate war opened fourteen steamers were actively competing for business, exclusive of Standard Oil and Asiatic Petroleum boats plying the waters. The famed gorges of the Yangtze, one of the greatest scenic districts of China, are located in this stretch of white water.

It is over this route that the rich province of China's most populous province, Szechuen, are brought out. When the rate war was resumed in July, ordinary cargo was being shipped on steamers more cheaply than the "Chinese junks," which are drawn through the rapids by hundreds of coolies on tump lines, could afford to handle it.

Ireland Offers Full Amnesty

(By The Associated Press.)
DUBLIN, Oct. 4.—It was in the hope of restoring peace without further bloodshed that the Irish government offered full amnesty to all offenders who surrender arms by October 15, says a proclamation issued today.

Greek Ex-Premier Calls On Ambassador Harvey and Makes Request for U. S. Intercession.

(By The Associated Press.)
LONDON, Oct. 4.—Former Premier Venizelos, of Greece today called on Ambassador Harvey and asked him to send a message to Washington requesting that the United States government intercede with the allies and request them to occupy Thessalonica, pending a final disposition of that territory.

Charles Fisher To Win Appointment

(By GEORGE H. MANNING.)
(Special to The Bee.)
WASHINGTON, Oct. 4.—Charles R. Fisher is to be appointed acting postmaster at Wytheville and Jacob H. Furr at Waynesboro, Va., in a few days. Congressman Slomp stated today that he had recommended these appointments and expected they would go through at once.

They can be put into office to succeed the Democratic incumbents without delay. It will become necessary for President Harding to send their nominations to the Senate for confirmation when Congress meets again. Fisher was the only candidate at Wytheville and passed the examination with a 90 per cent. rating, with an eligible rating. The other candidates were James H. Hamilton and Ernest M. East, in the order named.

At Waynesboro, Mr. Furr stood first among the three eligibles resulting from the examination. The other eligibles were James H. Hamilton and Ernest M. East, in the order named.

—Mrs. James Skinner, after spending the summer in New York, Richmond and Boston has returned to her home here.

TICKER TALK

(Courtesy of Thomson & McKinnon.)
NEW YORK, Oct. 4.—S. O. of California plans 100 per cent. stock dividend payable December 30 to stock record December 2.

Greece reported to have instructed her delegates at Mudania to reject any proposal for evacuation of Thrace and has called up military classes of 1917 and 1918.

Unemployed in Great Britain September 25, 1,319,900 decrease of half million since January last.

Pullman company year ended July 31, 1922 earned \$2.16 per share against \$5.10 previous year.

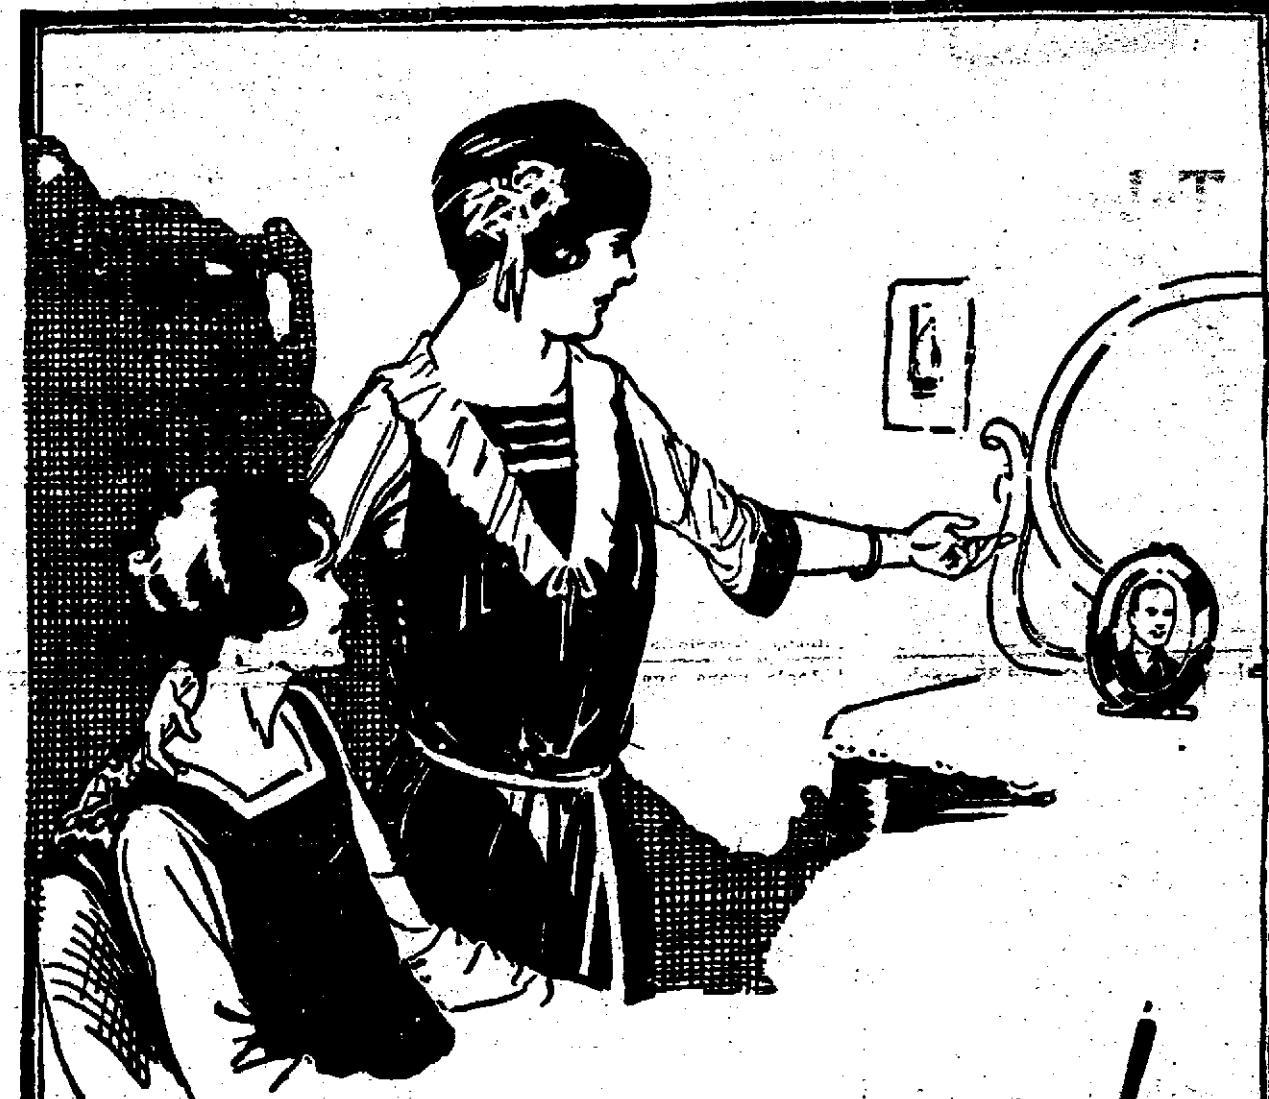

Dun's reports 5,027 failures in U. S. in this quarter 1922 with liabilities of \$116,790,031, representing increase of 555 in number, but \$6,000,000 less compared with same period 1921.

Labor board temporarily refused proposals for two cents an hour increase for track and common laborers of maintenance of way union affecting 300,000 men.

Despatches from the near eastern peace conference are conflicting. Latest news from Athens reports two military classes called to the colors, and Greek delegates to the parleys refusing to consent to withdrawal of troops from Thrace. Early quotations on exchange however, indicate no uneasiness among foreign bankers over the situation. London markets are firm.

Yesterday's impressive advance in Standard Oil stocks is accounted for today by the announcement on ticker, of a 100 per cent. stock dividend by Standard Oil to California. Rumors persist of similar action by other large industrial concerns, shares of which have recently shown sharp advances. Merger talk in connection with some of the steel is again re-appearing following yesterday's activity.

Lack of pressure in recent sessions, with indications of pool resumption on the buying side of many specialties, suggests a friendlier attitude toward the market but irregularity is to be expected temporarily.

"You owe it to him!"

YOU are his partner in life. Each day he relies on your help and aid. How can you hope to be the true helpmate you so long to be, if you drag through life in poor health?

TANLAC, Nature's Great Tonic, will send rich red blood coursing through your veins, your eyes will be bright and your digestion good. A real joy will be in your heart and a song on your lips—giving HIM the help he needs to WIN.

Thousands have voluntarily testified that this wonderful medicine has restored their health and strength.

At all good druggists.

Wets Say Cause Gains In the West

WASHINGTON, Oct. 2.—Interest in the wet and dry issue over the country is keen, according to reports received here at the headquarters of both sides.

The supporters of the movement to liberalize the Volstead act have been encouraged by the reports of gains in some of the western states. They hope to elect congressmen in Ohio, Illinois, Indiana and Michigan.

Representative Volstead (Rep., Minn.), father of the code that is under fire, is having another hard fight in his district, and it is said that he will have difficulty in coming back.

The dries are alive to the situation. The Anti-Saloon league has instructed its branches in the several states to be on guard. A list is being completed of the districts in which the wet and

MURINE Night and Morning. Have Clean, Healthy Eyes. If they Tingle, Itch, Smart or Burn. Use **MURINE** often. Satisfies, Refreshes, Safely. For Free Eye Book, Write to Free Eye Book, Murine Eye Remedy Co., Chicago.

dry issue figures, with a view to helping the dry candidates.

That the next House will be safely Republican was predicted today by Chairman Adams of the national committee. He said the primaries showed that but 6 per cent. of those members who sought renomination were turned down. "The results clearly show," he said, "that the rank and file of the Republican party are satisfied with the work and personnel of the Republican majority in the present Congress."

Mr. Adams said that where present incumbents were defeated it was due to local dissatisfaction. The list defeated includes: Kansas, 1; Missouri, 1; New Jersey, 2; New Mexico, 1; New York, 1; Oklahoma, 1; Pennsylvania, 4; and Wisconsin, 1.

BERLIN PAPER THIEVES

STRIP CITY OF POSTERS

BERLIN, Oct. 4.—Billboard strippers constitute a new type of thief on Berlin's police blotter. Due to the increased value of wastepaper, the plundering of street advertisements has set in.

The thieves work at night, and so far have confined their activities mainly to the round poster pillars which dot the city's thoroughfares, adorned with vari-colored bills advertising theaters, restaurants, dance halls, etcetera. One young man was found to have torn down 50 kilograms of old paper and stored it at home for future sale.

"HOBO COLLEGE" DRAWS THOUSANDS

By NEA Service

CHICAGO, Oct. 4.—Chicago's Hobo College is just opening its fall term.

And judging from the hundreds of down-and-outers, panhandlers, jobless men and others out of luck who are pouring in from all parts of America, this year's enrollment will set new records.

As an institution of learning for the man down and out, where he not only can study but warm all winter, discuss his own problems, review his ramblings, the Hobo College was established 20 years ago by James Eades Howe, "millionaire hobo."

Since then, it has become a recognized institution in Chicago. Artists, clerics, sociologists and even society leaders have from time to time taken part in its work.

Howe, son of wealthy parents, early became interested in humanitarian work. In his youth, he

JAMES EADES HOWE, FOUNDER OF CHICAGO'S "HOBO COLLEGE."

learned the tramp's psychology through personal contact with them. At Harvard and Oxford, he studied with a view to bettering humanity.

The hobo, and through him the world, can be improved by education, Howe holds. The money he inherited, therefore, went to founding the Hobo College. Counterparts of it have been founded in other cities.

"Students" of the college attend during the winter months. In the summer they disperse to the harvest

fields, to other migratory seasonal occupations, or to the hobo life.

Three nights a week will be given to instruction this winter. Industrial law, economics and health are the courses offered each handed by competent instructors. There is also a box at favorite operatic or theatrical attractions—also, free meals certain evenings. These meals can always be counted upon to swell attendance at the classes.

The once successful man, the man highly educated who cannot seem to find his niche, the boy who never had a chance and the vagrant from choice, all are enrolled at the college. Some find mental stimulus and a means of becoming useful citizens again; others find in the institution its comforts, free from "hobo-house" atmosphere. Its doors are always open, its warmth continuous, its piano, is free to all and there is always a plentiful supply of books and magazines.

New Law May Bar Out Daughter Of American

NEW YORK, Oct. 2.—Whether the child of an American citizen can be deported by immigration authorities under the status of separate citizenship granted women by the law recently signed by President Harding is the newest complication which puzzles Ellis Island.

An eighteen-year-old girl, who gives her name as Rose Miller, or Mueller, is now detained among the first cabin passengers held up at the pier. Miss Miller says her parents live in Lexington, Me., and her father is a citizen. Two years ago, she says, she left her home and began a stage career. She has been a dancer and chorus girl in several musical comedies and burlesque shows, and quite recently left New York to fill an engagement as a cabaret dancer in Colorado Springs.

When she returned here on the steamer Colon the right to land was denied her by the inspector who boarded the ship. She was sent to Ellis Island. The Board of Special Inquiry found the girl had only \$10. Fearful of her becoming a public charge, they deferred the case until Miss Miller's parents could be heard from.

Although she may be the child of an American citizen, Miss Miller was born in Poland and was brought here when three years old. Her case suggests possible complications in future enforcement of immigration

laws upon women, whose citizenship, under the new law, is a matter separate and apart from the citizenship of husbands and fathers.

COURSE FOR GIRLS IN FINE ARTS

TOKIO, Oct. 4.—A course for girl students, shortly to be started in the Tokio Academy of Fine Arts at Ueno. A plan also is under consideration by the government for the establishment of a girls' school of fine arts. Mrs. Yosano, the famous Japanese poetess, opened last year a private institution devoted to the artistic training of girls. Prominent writers and painters form the teaching staff.

Chronic Constipation

Relieved Without the Use of Laxatives

Nujol is a lubricant—not a medicine or laxative—so cannot gripe.

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus replaces it. Try it today.

Nujol

A LUBRICANT—NOT A LAXATIVE

S. S. S. Fills Out Hollow Cheeks, Thin Limbs!

Men and women—whether you will ever build yourself up to your normal, right weight depends on the number of blood-cells in your blood. That's all there is to it. It's a scientific fact. Your blood-cell factory isn't working right, you will be run-down, thin, your blood will be in disorder, and perhaps your face will be broken out with pimples, blackheads and eruptions. S. S. S. keeps your blood-cell factory working full time. It helps build new blood-cells. The way S. S. S. builds up thin, run-down people, it puts firm flesh on your bones, it rounds out your face, firms neck, fills the whole body. It puts the "pink" in your cheeks. It takes the hollows from the eyes, and it foods Father Time by smoothing out wrinkles in men and women by "plumping" them up. S. S. S. is a remarkable blood-purifier. While you are getting plump, your skin eruptions, pimples, blackheads, acne, rheumatism, rash, itchy blotches are best kept under the medicinal ingredients of S. S. S. are guaranteed purely vegetable. S. S. S. is sold at all drug stores in two sizes. The larger size is the more economical.

Each Bottle Brings Health

JUST make a regular habit of drinking milk and you will see for yourself the decided change in your health.

Doctors and health officials prescribe it for body building.

Our only caution to you is that you make sure the milk you get is pure and this you will find by getting your milk from us.

Rasterization is Health Insurance

Through a Sieve Woven Finer Than Silk

Portland cement, to meet the exacting specifications of leading engineering societies and the United States Government, must be ground so fine that at least 78 per cent will pass a sieve having 200 wires per linear inch. A silk handkerchief has but 110 threads per inch—an excellent quality of silk dress goods 157 threads.

The watch in your pocket hardly calls for a more complicated and carefully adjusted process of manufacture than the making of cement.

Grinding is only one of the many operations required to make it. Yet in grinding alone, see what is required:

The rocks from the quarry, often as big as a piano and heavier, go first into a gigantic "coffee mill." It bites at these huge chunks, chips them, and finally crushes them—to pieces six inches or so in diameter.

Two finer mills follow, one after the other, reducing the stones to the size of coarse sand. After this, they must be ground in a great revolving cylinder half filled with steel balls, until every cubic foot of the rock has been reduced to 14 billion pieces—until 85 per cent of them will shake through a sieve that will actually hold water, as sieve with 40,000 holes to the square inch.

And all of this is less than half the necessary grinding. The coal must be ground. For the object of all this fine grinding of the raw materials is only that it may be fused into crystalline clinkers. And to fuse it requires pulverized coal—or its equivalent. Most plants use pulverized coal.

The coal must be ground as fine as the raw stone. Eighty-five per cent of it or thereabouts must go through the sieve that holds water. And that often means two grinding operations.

There is still the clinker to be ground. It is glass-hard to begin with. It must be ground first to the fineness of sand, and then ground and reground in another cylinder of steel balls—until at least 78 per cent of it will go through the sieve woven finer than silk.

Huge boulders to an impalpable dust. Common coal to an impalpable dust, and finally, after the burning, glass-hard clinker to an impalpable dust. That is the making of cement. And eight heavy grinding operations are required in the process.

Grinding is only one of the lesser heat and power consuming operations in cement manufacture.

Swedish Women For Prohibition

STOCKHOLM, Oct. 3.—That 57 per cent of Swedish women favored prohibition of the manufacture and sale of beverages containing more than two and one-fourth per cent. of alcohol, while 60 per cent. of the men were against it, is now apparent from a further count of the votes cast at the recent liquor referendum which resulted in a victory for the "wets."

Sweden now will continue the present rationing system, whereby the heads of families with children are given a respectable and self-supporting can purchase about a gallon of strong liquor per month, while any one can order drinks with meals under legal restriction at public restaurants.

The final tabulation shows that in Stockholm, Gothenburg, and Malmoe, as well as in other cities and suburban districts, both men and women were strongly against prohibition, while in the country districts, especially in the northern part of Sweden, both men and women were as a rule in favor of prohibition. In the capital, for example, 90 per cent. of the men and 58 per cent. of the women were against the proposed measure. This may be contrasted with a certain agricultural section where 90 per cent. of the women and 73 per cent. of the men wanted two and one-fourth per cent. drinks.

It is interesting to note that the majorities of men and women were on the same side of the question in 15 provinces out of 25, while in the other 10 provinces the two sides of the family seem to disagree in their taste for stimulants.

That Swedish women do not neglect the ballot is proved by the fact that in Stockholm they outnumbered men at the polls by more than 9,000. And the showing for the entire country was 300,000 women as against 288,000 men.

The voting which took place Sunday, August 27, was conducted in the most orderly fashion. Lines began to form at nine in the morning at the various polling places in Stockholm. Among those who voted early were Premier Branting and his wife, who voted against prohibition, as did also Dr. Bratt, Sweden's "drink dictator," who is the originator of the present rationing system. Gay propaganda was carried on throughout the day by both sides by means of parades, mounted heralds, and even airplanes. At night the square in front of the Royal Opera was packed with thousands of people who amused themselves by watching the bulletins of results until three in the morning.

Pays Her Taxi Bill With 42,000 Cents

GREENWICH, Conn., Oct. 2.—A wealthy woman, living in a fashionable part of Greenwich moved to her winter home in New York City last week owing the Greenwich Cab Company \$420 for taxi fares. A representative of the company had visited her home here on two occasions in an effort here on two occasions in an effort to collect the bill, but was unsuccessful.

Yesterday the woman sent a taxi from New York to the cab company's offices here with a keg containing 42,000 pennies. With it she sent \$1 to pay for the taxi that had made the trip from New York to Greenwich for the purpose of collecting the money, and her photographs, under which was written:

"O. K. is."

It took four men to carry the keg into the Putnam Trust Company here last night.

Voice Is Heard Across Atlantic

NEWARK, N. J., Oct. 2.—New officers at Radio Station WOR here announced today receipt of a wireless message declaring that the voice of a woman singing and the strains of an orchestra that were broadcast from Newark last night in an attempt at trans-Atlantic communication, had been heard in London.

A message sent broadcast by Sir Thomas L. Watson did not carry across the ocean, however the London message mentioning only the music strains and the woman's voice, Sir Thomas, it was announced, would make a second attempt next week.

Officials at station WOR declare that this is the first time that actual radio communication has been broadcast across the Atlantic.

The following wireless message was received from London today:

"Large crowds in London awaited results of radio tests. Great interference from ship's sparklers. Heard your test—music and woman singing."

The leaves of the Madras water lilies will readily support the weight of a child.

Man's Head Is Found By Boys

NEW YORK, Oct. 3.—A man's head was found yesterday morning in a meadow of Bronx Park, off Pelham Parkway, by Vito Marilla, 14, of East 180th street, and Salvatore Compese, 12, of Crotona avenue, both of the Bronx.

They were hunting mushrooms near a pond when they stumbled over a bundle. The outer wrapping consisted of several thicknesses of the brown paper used by butchers. The inner consisted of blue and white bed ticking. The boys telephoned the Bronx police.

Assistant Medical Examiner John Rieppel said the head had been cut off not more than 24 hours. There were no bullet wounds, or marks of violence. Over the left eye and behind the right ear were two old scars. The head is believed to be that of an Italian, about 35 years old. It has black hair and brown eyes. The teeth are remarkable for their alignment and fine condition.

"Of course it was a murder," said Captain of Detectives Henry Dumas, "but we have no way of knowing the manner in which it was committed. Whether the man was shot and then beheaded, or whether the murderers simply decapitated him, is one of the angles we hope to clear up."

"I believe the head was tossed into the meadow from an automobile some time Saturday night. Apparently the automobile was travelling at a high rate of speed and made a quick stop. At a point in Pelham Parkway, in a line with the spot where the head was found, the gravel was marked as though by skidding wheels."

The head is now at Fordham Morgue.

BLACK DRAUGHT OVER 30 YEARS

"Saved Me Many a Sick Spell," Says Texas Farmer, Who Has Long Known Usefulness of Black-Draught.

Naples, Texas.—"I have used Thedford's Black-Draught for years. I can safely say for more than 30 years," declares Mr. H. Cromer, a substantial, well-known farmer, residing out on Route 3 from here.

"I am 43 years old, and when a small boy I had indigestion and was very nervous. My father gave me a liver regulator. Then Black-Draught was advertised and we heard of it."

"I began to take Black-Draught and have used it, when needed, ever since. I use Black-Draught now in my home and certainly recommend it for any liver trouble."

"I have given it a thorough trial, and after thirty years can say Black-Draught is my stand-by. It has saved me many sick spells."

Mr. Cromer writes that the is "never out of Black-Draught," and says several of his neighbors prefer it to any other liver medicine. "I always recommend Black-Draught to my friends," he adds.

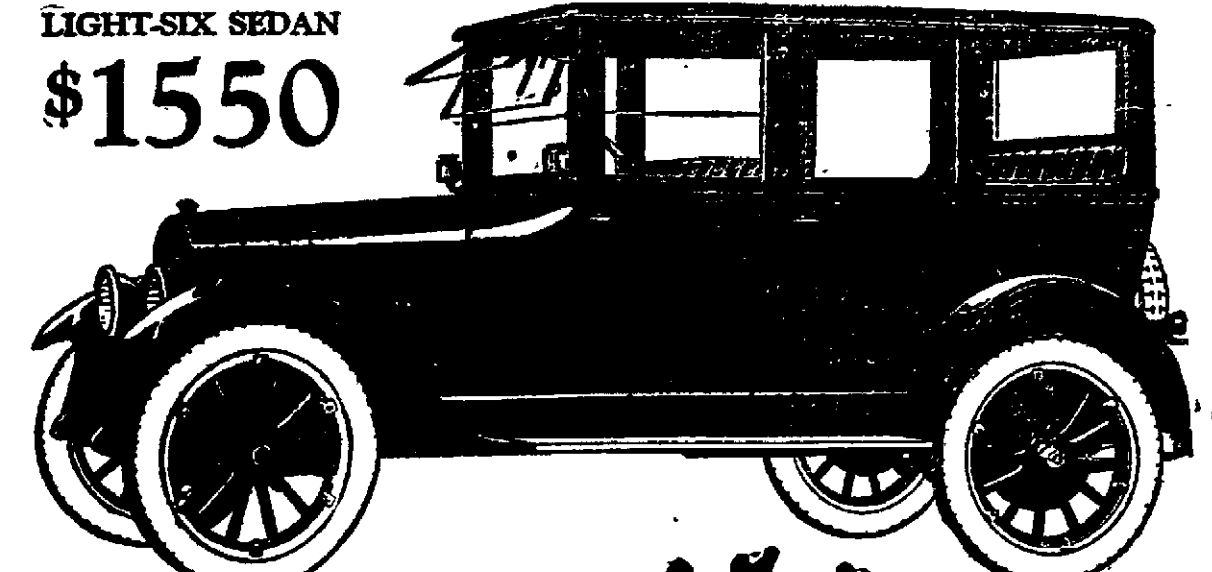

This valuable, old, powdered liver medicine is prepared from medicinal roots and herbs and has none of the bad effects so often observed from the use of calomel, or other powerful mineral drugs.

Black-Draught helps to keep the liver in trim, helping prevent or relieve such troubles as constipation, biliousness, indigestion, sick headache.

Be sure to get the genuine.—adv.

No One Need Buy Cuticura Before He Tries Free Samples

The leaves of the Madras water lilies will readily support the weight of a child.

Let Us Show You the Difference!

Vibration is destructive. It shortens the life of a car. It takes the pleasure out of riding because it causes rattles, squeaks and other irritating noises.

Vibration is particularly annoying in closed cars.

There is no perceptible period of vibration in the Studebaker Light-Six at any speed. This is due in part to Studebaker's method of machining the crankshaft and connecting rods on all surfaces. No other car, at anywhere near the price, follows this practice.

Lack of vibration and the quiet, smooth-running motor find quick approval from everyone who rides in the Light-Six Sedan.

And every driver is similarly enthusiastic over the way it throttles down to a walking gait in high gear—and the quick response that follows the touch of the accelerator.

Aside from its mechanical excellence, the Light-Six Sedan is notable for its sterling coach work. The substantial body, like the chassis, is built complete in Studebaker plants. Materials and workmanship are of highest grade.

Long, semi-elliptic springs and deep, restful, nine-inch cushions afford genuine comfort. Upholstery is of a rich, mohair velvet plush—good-looking and durable.

Today's price is the lowest at which the Light-Six Sedan has ever been sold. The name Studebaker on your car is the best protection you can have!

SIX CYLINDER GARAGE

THIS IS A STUDEBAKER YEAR

SPOOK DEFIES POLICE SQUAD AND REPORTERS

CHICAGO, Oct. 3.—Despite a special guard of police, the presence of a squad of newspaper reporters and photographers and more than 1,000 curious persons, there was a repetition early tonight of the weird knockings and screeches which terrorized an entire neighborhood on the north side last night.

When the blood curdling cries first issued from the purple shadows of the quiet residence district around Clifton and Seminary avenues last night, a riot of blue coats scurrying throughout the district. The moonlight had transformed the familiar landscape into one of unreality, and the unearthly means, rising to a shriek that chilled the marrow of the policemen's bones kept up all during the night.

In the garish light of day, it seemed like a bad dream, but at sunset tonight little squads of patrolmen began filtering through the neighborhood again determined to solve the mystery. They were followed by crowds of sightseers. The patrolmen set systematically to work and searched every house in a square block but all in vain.

Up till a late hour the "spook" was still making the welkin ring and defying all efforts toward its detection. The nerve-racking shrieks were varied and then by mysterious wrappings or thuds, described by a police lieutenant as resembling the sound of padded bricks dropped on an empty coffin.

After a brief period of quiet ended by the banshees cry one of the watchers, confused by the shadows, cast by the full moon, emptied his pistol at a fancied spectral shape which proved to be only a shadow.

The crowds scattered at the sound of the shots and the policemen in the district were ordered not to use their pistols under any circumstances but to grapple barehanded with the spook in sight.

After a scream more ghastly than usual, the bluecoats beat on the fence with their night sticks and then investigated the woodsheds and dog kennels but found nothing and the neighborhood composed itself to sleep.

"I guess we laid it all right," remarked the sergeant as he departed with his force.

But a half hour later another call summoned the police who then settled down to an all night vigil.

TRIAL OF 13 MEN FOR MURDER OF RATHENAU START

LIEPSIC, Oct. 3.—(By The Associated Press.)—Just how much longer Walter Rathenau the foreign minister, would have been permitted to live if the German mark had not started its downward career in mid-June is one of the mysteries suggested by the testimony given today at the first session of the trial of 13 persons accused of being in direct or indirect complicity in the assassination of Rathenau.

"Did you not say shortly after the murder was committed 'it was high time the job was pulled off as our financial backers had almost refused to come across'?" was a question put by the attorney general to Ernest Wearner Tescho, the alleged driver of the automobile from which the shots that killed Rathenau were fired.

The defendant hesitated, but finally declared that what he had meant by his statement was that in view of the precipitate depression in German money the so-called monarchial circles were speedily firing themselves becoming impoverished.

The first day of the proceedings was occupied by the court in an examination into each defendant's history.

The majority of the defendants gave the impression that they were members of so-called "better" families, which lost their fortune through the war.

The 13 defendants were either munching chocolate or varying on lively conversation when the judges made their solemn entry into the packed court room today to commence the trial.

Use of gunpowder for fireworks was covered by a German monk, Bertold Schwartz, about 1300 A. D.

The All American Family

CREASY FOUND GUILTY OF FIRST DEGREE MURDER

MINEOLA, N. Y., Oct. 3.—William M. Creasy, Kentucky mechanic, was found guilty of murder in the first degree tonight for the shooting of Miss Edith M. Lavery, Freeport, N. Y., school teacher.

LITTLE WORLD SERIES TODAY

BALTIMORE, Md., Oct. 3.—The so called little world series between Baltimore and St. Paul, champions of the American Association, will get under way here tomorrow. Nine games are booked, the honors to go to the first team winning five. Contests are scheduled tomorrow, Thursday, Saturday and Sunday. Unless rain should interfere, the rivals will leave Sunday night for St. Paul and will play on the same days of the week in the western city.

This series will be the third between the two leagues. Baltimore beat St. Paul in 1920 and last year Louisville carried away the honors for the American Association by downing Baltimore.

MOOSE HAVEN DEDICATED

JACKSONVILLE, Fla., Oct. 3.—Moose Haven, the national home of opportunity, established by the fraternal Loyal Order of Moose at Orange Park, near here was dedicated today, with Rodney H. Brandon, of Moose Heart, Ill., supreme secretary of the order, and Governor Hardee of Florida the chief speakers.

It was explained that while the home is for aged members of the order its not a charity home.

All inmates will work and will be given their keep and a sum of money for their labor. When they no longer can work they will have a home in which to spend the remainder of their days.

VIRGINIA GETS READY FOR GAME WITH PRINCETON

CHARLOTTESVILLE, Va., Oct. 3.—Virginia's football squads have been making good use of the bright afternoons this week in their preparations for the Saturday game against Princeton. Yesterday there was a stiff scrimmage against the scrubs and another will probably be held this afternoon. Head Coach Campbell is working hard to get his varsity squad in condition to hold the Tiger to a small score as possible.

Monday afternoon the varsity took the lower Lefevre Field for signal and dummy scrimmage practice while Coaches Hankins and Rinehart brought the freshmen on to the main field for the first scrimmage of the season. With over 90 first year men to be put into play it was hard to give a thorough test to the abilities of any one of them but the coaches spotted a good many youngsters who showed promise of real ability. It is probable that a prep school eleven may come to Charlottesville Saturday for a practice game with the first year team.

Not only are the coaches and their charges hard at work but Ellis Brown, graduate manager, and Robert Bullington, student manager, are kept busy preparing for the crowds that are expected to come to Lambeth Field for the games with V. M. I., Washington and Lee, and North Carolina.

Since the crowd at some of the games is expected to be several thousand and more than the stadium will hold arrangements are being made to have wooden seats put up for about 6,000 people. The Virginia student body will probably have this new stand if it is completed for the V. M. I. game October 21 since the entire cadet corps of V. M. I. is expected to come to Charlottesville as the guests of the General Athletic Association. The Augusta Military Academy corps is also expected to come as guests of the G. A. A.

Bee-stings, as a cure for rheumatism, are having quite a vogue.

WORLD SERIES HEROES

- 1910—Eddie Collins, Athletics, second baseman, and Jack Coombs, Athletics, pitcher.
- 1911—Frank Baker, Athletics' third baseman, whose home runs defeated the Giants.
- 1912—Tris Speaker, Red Sox center fielder, by his hitting, and Harry Hooper, Red Sox right fielder, by his fielding, featured the victories over the Giants.
- 1913—Baker, by his hitting, and Chief Bender and Eddie Plank, Athletics' pitchers, defeated the Giants.
- 1914—Hank Gowdy, Braves' catcher, batted his team to victory over the Athletics. Dick Rudolph was the star pitcher of the Braves.
- 1915—Duffy Lewis, Harry Hooper and Tris Speaker of the Red Sox outfield, defeated the Philadelphia Phillies by their batting and fielding.
- 1916—Larry Gardner, Red Sox third baseman, was chiefly instrumental in defeating the Dodgers by his batting.
- 1917—Eddie Cicotte and Urban Faber, White Sox pitchers, who won the games from the Giants by their twirling.
- 1918—George Whitehead, veteran of the minor leagues, who played left field for the Red Sox and was the chief factor in defeating the Cubs by his batting and fielding.
- 1919—Walter Reuther, Red pitcher, by his batting, and Eddie Roush, Red center fielder, by his fielding, were the big factors in most of the defeats of the White Sox. Dickie Kerr, White Sox youngster, pitched his team to two of its three victories.
- 1920—Elmer Smith, Cleveland right fielder, hit a home run with the bases full, the first time in world's series history. Bill Wambagans, Cleveland second baseman, completed a triple play unassisted. Jim Bagby, Cleveland pitcher, hit a homer with two on All happened in the fifth game which Cleveland won from Brooklyn 8 to 3.
- 1921—Jesse Evans, regarded as the "pall bearer," of the Giants pitching staff, relieved Toney twice after he had been knocked out of the box and won both games. Ross Young, Giants outfielder, hit a triple and a double in the seventh inning of the third game. Frank Frisch, Giant third baseman, scored two runs in the same inning. Carl Mays, Yankee pitcher, pitched the first, fourth and seventh games without giving a base on balls. Mike McNally and Bob Musel, of the Yanks, stole home.

LEE WORTHY WINS RACE AND SETS A RECORD

LEXINGTON, Ky., Oct. 3.—Frank H. Ellis' Lee Worthy driven by Ben White won the thirtieth renewal of the Kentucky Futurity in convincing style this afternoon, equalling the record for the stake, and the world's record for three year old colts in the first heat. This is the same winning combination that landed the junior division of the same stake on Monday.

The bad behavior of Peter Earl, causing him to be distanced in the opening heat, was a great disappointment to the crowd as it had been expected that a great battle would be staged by the pacer. Peter Earl was acting badly when the horses were first scored and upon finally getting to work made a break and almost ran over the outside fence near the 5th pole, getting so far behind that he could not catch up with the field.

Bunter, owned by Howard M. Hanna Jr., of Cleveland, that has been one of the main contenders all season, made Lee Worthy trot the opening mile in record equalling time. He went into a pace at the start of the second heat and got away badly but trotted very fast and finished third.

The 2:06 trot was one of the best races of the day and was won by the Western trotting gelding, Day O, the winner, is a horse of rather uncertain disposition but he was on his good behavior today.

The main contender in each heat was the four year old, Clyde the Great.

The 2:14 pace was a lively battle with three heat winners contesting for the final decision. Robert M., won the event.

The 2:03 pace was won by John Henry in straight heats. Peter Marburg will start tomorrow to beat the track record of 1:57 3-4 and Nedda to beat her record of 1:59 1-4.

In a mine in the United States, a half mile deep, the temperature is 139 degrees.

HAMPDEN SIDNEY AND LYNCHBURG CLASH SATURDAY

LYNCHBURG, Va., October 3.—Having put the finishing touches to his offensive machine and lined out the kinks in his defense during the course of the past week of practice, Coach Peyton Evans, football mentor at Lynchburg College, feels that the Hornets will go strong in their Hampden-Sidney game on October 14. The Hornet coach believes that every man should tackle and block skillfully, and included in the daily routine is a set with the tackling dummy.

Captain "Boogie" Myers, of Westminster, Md., is in the scrimmage line-up again. The 185-pound tackle broke a bone in his hand, but gamely played in the V. M. I. contest. Upon Myers falls the brunt of the punting "jinks" Nottingham, of Eastville, is trying out for one of the wing positions. Nottingham played tackle on the Hornet varsity last year. This Eastern Shore lad is fast and handles himself well. Bruce Gibson, of Bethany, W. Va., substituted at end in the V. M. I. game and made a very creditable showing. He has a regular berth on the first team since that game. Perhaps two of the most consistent ground gainers in Virginia college football are "Chick" Witt, of Lynchburg, and Milton Parker, of

Wachapreague, Va. Witt played left halfback, while Parker is seen at the fullback position. Witt intercepted a forward pass in the V. M. I. battle and raced 70 yards through a broken field for a touchdown. He is the fastest man on the Hornet squad and has a knack of twisting and side stepping which make him a difficult man to tackle. "Mingo" Parker's long bow is bucking the line. Stockily built, he hits the line low and keeps digging. "Spillertre" Cromwell, of Norfolk, is the field general of the Hornets. Sergeant Kitchen of Courtland, Va., plays right halfback.

GOLF TOURNEY STARTS TODAY

ASHVILLE, N. C., Oct. 3.—Three upsets today marred the tranquillity of the match play in the first division, a lovely three "dark horse" start match play in the champion flight tomorrow and three stars are relegated to the second flight, in the women's golf tourney at the Asheville Country Club.

The upsets were the defeat of Miss Edith Moore by Mrs. E. O. Flich two up; of Miss Lamar Henry by Mrs. J. K. Ladds, seven and five and Miss Therese Chapman by Mrs. T. S. Rollins five and four. Mrs. Ladds is from Garden City, N. Y., and the others of Asheville.

RELICS OF WAR TO BE DISTRIBUTED

RICHMOND, Va., Oct. 3.—By a session of Virginia will be able to obtain for its own community a relic of the World War. The governor has named General William Wilson Sate as chairman of the war distribution board, which will receive applications for the portion of the relics that will come to Virginia from the collection of many thousands now held in New Jersey. The government will send the relics to the state capitals for distribution. The committee was named on request of Hanford Macnider, head of the American Legion. The other Virginia members of the board are: Colonel E. E. Goodwyn, commander of the Virginia division of the American Legion; Major Clinton L. Wright, of Norfolk; Major Guyman N. Harrison, of Fredericksburg; Major Sydney T. Moore, of Wytheville. Communities desiring to obtain these relics should write to the members of the board at once.

FAIR WEATHER PROMISED
NEW YORK, Oct. 3.—Fair weather for the first two games of the world's series and probably the third, with little change in temperature and moderate winds was promised by the local weather bureau tonight.

HUMOR'S SOBER SIDE!

By Josephine an de Grift
"There was once an actor who opened in a new play," says Heywood Brown, New York columnist and artist, whose deft comments have from time to time aroused the ire of theatrical managers.

"His acting was the worst I ever saw and I said so. The actor sued me for libel but he lost the case. Pretty soon he bobbed up in another play. The night of the opening his lawyer came over to me and said, 'Now look here, if you lambast this man again, he may have cause to say you are prejudiced against him.' 'Well, it looked to me as though there might be some basis for the lawyer's notion, so that night after had seen the play I merely wrote that the man's acting was not up to his usual standard.' 'That,' says Brown, 'I consider to be my best line.'"

Brown likes puns; thinks they're perfectly legitimate, and admits he's been under obligations to "em more than once." Also to the familiar quotation.

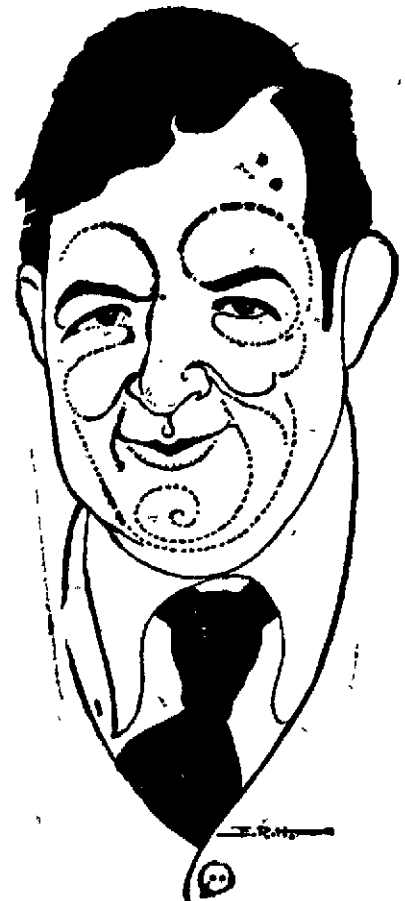

"When you get stuck," he says, "there's nothing like, 'It's a long worm that has no turning' or something similar to get you out of a tight place."

"Of course a humorist has all kinds of aids. There's Heywood 3rd now when he was about 10 years old he made all kinds of good copy."

"But Heywood 3rd is four and a half now and I could see I was getting to be like those parents that go around button-holing folks and saying, 'Say, my kid got off a good one the other day—so I haven't used Heywood 3rd so much. The other day though—' Brown checked himself suddenly.

"And then there's the fellow who comes up and says, 'Oh, by the way, Brown, I thought of something good the other day. Of course I haven't got it worked out exactly, but I thought you could open to the audience.' So you see there's always something bobbing up to soften the hard labor of the humorist."

Before Brown became a critic and columnist he was a writer of spots and he still reports, but games and occasional news stories in an effort to

HEYWOOD BROWN

counteract the rather artificial influence of the theater.

In his column he endeavors to introduce the serious as well as the humorous.

"I can't write verse," he says, "and it's a pity because when you write verse you don't have to fill up the line. I can talk about anything I please, though, so that makes it easier."

"Running a column though, isn't anything like writing a book. There's real work for you. I'm getting out a new one now. What? Well, to be frank with you, it's about a newspaper man who's a sporting editor and he has a son—"

Detectives Seek Clothes Worn By Rector's Widow

Mrs. Hall, as Well as Brother Sent Goods to Cleaner Soon After Discovery of Murder—State Troopers Held Up by County Authorities.

NEW YORK, Oct. 4.—On learning that four days after the Rev. Edward Wheeler Hall and Mrs. James Mills, his choir leader, of New Brunswick, N. J., were found murdered on a farm, Mrs. Hall, the widow, sent some of her clothing to Philadelphia to be cleaned. Detective Charles Collins of Middlesex County went to Philadelphia yesterday.

The clothes were sent to Borno's cleaning establishment, Walnut and 18th streets. With Lieut. Belshaw, head of the Murder Squad of the Philadelphia police, Collins made inquiry regarding the clothes, but the cleaners had no record of the condition in which they were received.

Subsequently Louise Geist, maid at the Hall home, was taken to the murderer's office in New Brunswick and questioned. What the authorities learned from her was not disclosed.

It will be recalled the detectives working on the case found fifty-year-old William Stevens, eccentric, brother of Mrs. Hall, also sent some of his clothing to be cleaned after the double murder.

Troopers on Job
State troopers, ordered on the race by Gov. Edwards, went to the livery house to examine the clothes Mr. Hall and Mrs. Mills wore, and had to wait an hour before the county officials showed them.

It had been learned the outside of the lenses of Mr. Hall's glasses were blood spattered. Dr. E. I. Cronk, health officer of New Brunswick, who was present at the autopsy on the body of Mrs. Mills, which disclosed that she had not only been shot in the head three times but that her throat had been cut from ear to ear, said at least a quart of blood must have been made after she had been shot to death. Only a small quantity was un-

der the head of each victim where the bodies were found.

Dr. Cronk also said that in his opinion the assassin stood above the couple when he shot them.

Supreme Court Justice O'Malley in Manhattan yesterday delayed until this morning any action on the application of the New Brunswick authorities for an order directing the trustees of Greenwood Cemetery in Brooklyn to permit an autopsy on the body of Mr. Hall.

Police Lieut. John R. Ferguson of New Brunswick and Assistant District Attorney Banton's staff visited Justice O'Malley in the latter's chambers yesterday afternoon. After a short conference, Justice O'Malley announced he would take up the matter this morning.

Charlotte Mills, fifteen-year-old daughter of the slain woman, was taken again to the prosecutors' office and questioned. She was asked why she went to Jersey City last week in an endeavor to see Gov. Edwards, and said she did so because she felt no progress was being made in running down the murderer of her mother and wanted to ask the governor to appoint Ellis Parker, Burlington County detective, who worked on the John Brunen's murder, to the case. The girl also said Mrs. Florence M. North, New York lawyer, was looking after her interests.

Lieut. Commander Sidney B. Carpenter, cousin of Mrs. Hall, was asked about letters reported to have been taken from the Hall home shortly after the discovery of the murder, Sept. 16. The detectives mistook him for his brother, Edwin R. Mrs. Addison Clark, who was one of the party the Halls took to Lake Hopatcong the day before the murders, also was questioned. The motor trip took five hours. Mrs. Mills was in the party. Mr. Hall and his mother sat in the rear seat. Mrs. Hall, Mrs. Mills, and Mrs. Clarke sat in back.

Mr. Hall's mother remained in the car while the others went rowing on the lake in one boat. At no time were Mr. Hall and Mrs. Mills alone. They remained at the lake two hours and arrived back in New Brunswick in the early evening.

It was reported the detectives were looking for two youths, one with a police record, who had not been seen in his usual haunts since the murders. Their movements were looked into by reporters a week ago, but nothing was learned to warrant suspicion against them.

Europe Hates America, Says Sen. Caraway

Asserts Politicians Blame Everything That Goes Wrong on U. S.—Paris Is Likened to Spoiled Child.

WASHINGTON, Oct. 2.—Returning from a European tour of several weeks in the course of which he visited France, Germany, Austria, Czechoslovakia, Serbia, Yugoslavia and Italy, Senator Caraway (Arkansas), Democrat, who was back in his of-

fice yesterday, declared that the politicians of Europe are engaged in a propaganda, the policy of which is to blame everything that goes wrong on America, that but for French 75s Greece would not have been humiliated by the Turks, and the present tense situation in the Near East would not have developed.

The Europeans, he said, hate one another, but when it comes to hating the United States, they forget all local animosities and join, he declared, in "one grand chorus."

France, Senator Caraway asserted, has become the "spoiled child" of Europe. She has enjoyed too much "petting and pampering" as the "senior of civilization," he said, and

has apparently definitely arrived at the conclusion that so far as the rest of the world is concerned all her debts, past, present, and future, have been cancelled.

The least Poincare, whom he met and talked with several times, Senator Caraway described as a "sort of village undertaker person," who is given much more consideration in the United States than in Europe. "Poincare," said the Arkansas, "reminds you of the undertaker in the little town who puts up and dresses up when the time comes, to bury the village's leading citizen."

Senator Caraway along with his colleagues, Senators Spencer (Missouri), McKinley (Illinois), Ladd (North Dakota), Harris (Georgia), called on the League of Nations when on his tour.

"What impressed me most was the propaganda that is being directed against the United States by the politicians of Europe. No matter what goes wrong they blame it all on us and I don't think I exaggerate when I say the most popular pastime in Europe so far as her politicians are concerned is what I may describe as 'cussing' the United States of America."

Protests Against Law Compelling Phone Service

GREENVILLE, S. C., Oct. 3.—The towns of Calhoun and Clemson College, S. C., and various persons in the two municipalities, today were temporarily enjoined by Judge H. H. Hawkins, of the United States District Court, from enforcing a law passed by the last session of the State Legislature requiring the Southern Bell Telephone and Telegraph Company to establish exchanges and toll service in the two towns. The telephone company took the stand that the law was in contravention of the fourteenth amendment to the Constitution of the United States.

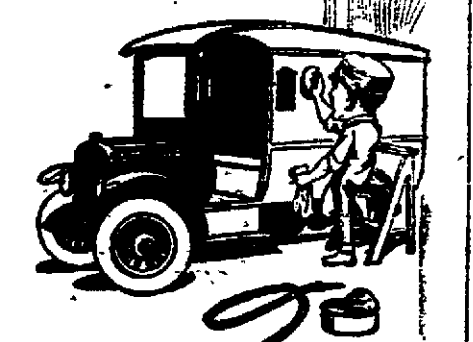

The law in question required that the company establish exchange and toll service within six months. The penalty for failure to comply was fixed at \$10 a day, which could be recovered by anyone who felt himself aggrieved.

Ford
THE UNIVERSAL CAR

FIVE HINTS ON THE CARE OF YOUR CAR

- 1—Use High Grade Cylinder Oil at all times. Drain old oil out and put in new every 500 miles.
- 2—Every three to four months remove wheels and adjust bearings.
- 3—Inspect frequently Universal Joints and put in Cup Grease when needed.
- 4—The Commutator should be kept clean and well oiled at all times.
- 5—Keep Tires properly inflated every day.

These "hints" for the care of your car will appear in this space weekly—Watch for them and for further instructions ask for Ford Manual. We will gladly give them.
